Preliminary Note: The Information Disclosure Statement of February 2, 2007 includes a listing of four non-patent literature references. Copies of these references are not currently in the record. Applicant is required to either provide copies of these references in response to this action, or provide the serial number of the application in which copies are provided, in response to this action. At present, these references have not been considered.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 16: In lines 6-7, only a classification theme score is generated, yet in lines 8-9, two different theme scores are compared. Similarly, in the last two lines of the claim, two theme scores are compared. It is not clear how two scores can be compared when only one is apparently generated.

Claims 17-20: Depends on claim 16.

Claims 7 and 12 are allowable over the prior art of record. Claims 16-20 would be allowable over the current available prior art of record if written to overcome the rejection under 35 USC 112, second paragraph.
